📍 Tokyo

@ [irvifa](#)

Diskusi tentang tugas dari minggu lalu

- Team updates
- Sari's solution

10 mins. break :)

Portfolio design

HTML & CSS Template Examples:

- [Codestitch](#)
- [HTML5Up](#)
- [Mobirise](#)
- Etc.

Component Library Examples:

- [React Component Libraries](#)
- [Vue Component Libraries](#)

When choosing a template, **pay attention to the license!**

Kalau bisa license nya **Creative Commons 3.0 atau 4.0.**

To-Do untuk next session

1. Selesaikan [tugas akhir dari freeCodeCamp](#).

	5. Your portfolio should contain at least one element with a class of <code>project-tile</code> .
	6. Your <code>#projects</code> element should contain at least one <code>a</code> element.
	7. Your portfolio should have a navbar with an <code>id</code> of <code>navbar</code> .
	8. Your <code>#navbar</code> element should contain at least one <code>a</code> element whose <code>href</code> attribute starts with <code>#</code> .
	9. Your portfolio should have an <code>a</code> element with an <code>id</code> of <code>profile-link</code> .
	10. Your <code>#profile-link</code> element should have a <code>target</code> attribute of <code>_blank</code> .
	11. Your portfolio should use at least one media query.
	12. Your <code>#navbar</code> element should always be at the top of the viewport.

[Flexbox containers](#)

[A href \(Links\)](#)

[Navbar \(vertical\)](#)

[Linking bookmarks](#)

[Target attribute](#)

[Media queries examples](#)

[Navbar \(vertical\)](#)

To-Do untuk next session

1. Selesaikan [tugas akhir dari freeCodeCamp](#).
2. Masing-masing buat satu repository untuk **GitHub Pages** (*nama-repo*.github.io).
3. Bisa familiarkan diri dengan GitHub Pages ([Link](#), [Link](#)).
4. Ini adalah tempat untuk display portfolio kalian. Contohnya:
 - a. <https://collabnix.github.io/kubetools/>
 - b. <https://dotnet.github.io/docfx/>
 - c. <https://coderefinery.github.io/documentation/>
5. Paste atau buat baru **index.html**, **CSS files**, dan kalau mau juga bisa ***.js** (JavaScript) files. [Tutorial](#).
6. Juga bisa mulai pilih-pilih layout atau tema GitHub Pages nya.
 - a. [Supported themes - GitHub](#)
 - b. [Jekyll Now](#)
 - c. [Build your GitHub Pages with Jekyll](#)
 - d. [Free Jekyll Themes](#)
 - e. [Adding a theme to your GitHub Pages](#)
7. Display repository Team kalian di GitHub Pages.

To-Do untuk next session
